

**LEADING
ORGANISATIONAL
CHANGE**
POSTGRADUATE
FEATURE COURSE

**CREATING HEALTHY SYSTEMIC
CHANGE IN TUNE WITH THE
KINGDOM PURPOSES OF GOD.**

Christian leadership and formation are fundamental aspects of healthy systemic change in tune with the kingdom purposes of God. In this course you will engage with the physical, relational, contextual, and spiritual complexities of transformation processes. You will have the opportunity to create a contextualized model for transformation which attends to a specific need for change in your community system.

Join internationally renowned scholar, church leader and planter Rev Dr MaryKate Morse and a host of other practitioners and scholars from New Zealand and beyond to explore the what, why, and how of organisational change.

“ Thriving in uncertain times is often defined more by outward success, but for Christian believers

IT IS ALSO DEFINED BY A DEEP CONVICTION THAT CHRIST IS THE SOURCE AND THE REASON FOR WHY WE DO WHAT WE DO.

We must live out our callings in specific, physical ways and in specific places. These behaviors are central to effective leadership and inspire hope within us and with others, especially during difficult times.”
